### **DETAILED ACTION**

1. Applicant's October 31, 2006 Amendment has been reviewed.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 4-6, 8 11, 15 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 7, "displaying within a computer" is not clear as to what/how a total is represented within.

Claim 4, lines 1, 2 "displaying a visual indicator of the association of the selected transactions within" and "forming the transaction group when the selected transactions within" are not clear as to what/how each is represented within.

Claim 5, line 2, "displaying a total for each transaction group within" is not clear as to what/how such is completed.

Claim 6, lines 2, 6, "identifying unreconciled transactions within" and "within" is not clear as to what/how such is completed.

Claims 8 and 11 each contain similar issues with regards to "within" as noted above.

Claim 15, line 4, the first, second and third instruction set “embodied within” are not clear and do not have support from the descriptive portion of the specification. Clarification is requested as to where such language is found, in juxtaposition with the drawings, from the original application.

Claim 18, line 2, “a third instruction set embodied within” is not clear and does not have support from the descriptive portion of the specification. It is further noted that no first or second instruction set has been claimed by Applicant that claim 18 depends therefrom.

***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1, 4-6, 8, 11 and 18, as understood, are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility.

Claim 1 lacks a concrete useful or tangible result. As is, the transaction group need not be treated as a single transaction and as a plurality of individual transactions.

Similar issues arise from claim 8. Applicant’s attempt to correct the claim language does not alleviate these defects. The claims still do not result in any tangible result flowing from the claim language.

***Election/Restrictions***

6. Applicant's REMARKS with regards to the restriction requirement is noted. However, Applicant is in error with regards to the Chapter 800 and the authority of the USPTO to issue restriction requirements. Nonetheless, Applicant's admission that the claims are not patentable distinct or independent from each other vacates the necessity for a restriction or election of species requirement.

7. Applicant's comments regarding Purcell, US 5,727,161 are noted. A further reference of interest, Landry, US 6,996,542 is noted.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
